To whom it may concern:

I love spending time with my dad, because not only is he a father to me, but he is my Best Friend. Also, I have seen how badly Child Support has affected my dad's life. I have wanted to live with him for as long as I can remember. But I have never been able to because he can't afford his own place. I have seen the emotional abuse on both my dad and my little brother. My little brother was/is told that we are not his real family. My dad had to sign him off because it was a forced issue by the mother of my little brother. Who played a big part in brain washing my little brother to believe that we were just strangers that he came to see every other weekend, or whenever it was convenient for her. So for my little brother's best emotional state, my dad thought it would be best to sign off his rights. I would really love to live with my dad. But if 6 months of the year is all I will be able to get, then I will take it. I believe that by passing this law, it won't only make me happier, but it will strengthen the relationships of kids who maybe don't have a good relationship with their dad. By passing this law, you will be making the right choice. Thank You for your time.

Sincerely,

Harmony Jones
