How does removing or marginalizing zoning authority from local townships actually help the process? We have seen the mess made when those in Lansing who are responsible for protecting local communities believe centralized government is the answer. One size does not fit all. Yet our state representatives mindlessly vote to force feed an expensive green goulash of counterproductive legislative regulations. Ever wonder why Michigan is falling behind in job creation or population? Poor leadership and overly oppressive regulations. How bad will 2024 be? Stay tuned.
