

My family and I are strongly opposed to this bill and if passed with no religious exemption, would be criminal.

The affect of this bill will be an economic win for ambulance chasing attorneys at the expense of Christian, Islamic and Jewish houses of worship, their hospitals, charity organizations, those suffering from poverty, etc.

We believe this law will shut down first ammendment freedom of speech and the free exercise of religion. The actions of this law are not on the side of God.

We pray that this law is not passed and if it is, there will be religious exceptions.

May God have mercy on us all.

Don Schmid and family  
Fenton, MI
