To Whom it May Concern,

I am writing to confirm that The Society for Ethics in Egg Donation and Surrogacy (SEEDS) has reviewed the Michigan legislation regarding surrogacy and The Board has voted unanimously in full support of the bill. SEEDS believes that the legislation is an important step in protecting all paths to parenthood and giving security to gestational carriers, intended parents and the children born as a result of assisted reproductive technology.

Please do not hesitate to reach out if you have any questions or concerns,

Sincerely yours,
