**To:** Molly Wingrove; Rep. Roger Hauck (District 99)  
**Subject:** HB4575 oppose

Please record my objection to HB 4575. The adverse health impacts of natural gas and other fossil fuels burned in homes and commercial buildings is undeniable, well established.

The premature deaths and costs to society need to be considered. We should discourage the use of fossil fuels and not prohibit those with sense enough to support healthier alternatives.

Do not vote for HB 4575.
