## **BACKGROUND AND SUMMARY OF PROPOSED RULES**

The federal government through the Environmental Protection Agency has delegated the maintenance of the state's air quality to Michigan through the Department of Environmental Quality. The DEQ must maintain administrative rules in accordance with the federal Clean Air Act in order to remain in good standing with EPA standards. These proposed revisions to the Part 19 rules would allow the DEQ to remain in compliance with these standards and prevent duplicate or contradictory regulations.

## **FISCAL IMPACT OF PROPOSED RULES**

It is unlikely that the proposed rules would affect costs or revenue for the DEQ. These changes are also unlikely to affect costs or revenues for local units of government.
