## BACKGROUND AND SUMMARY OF PROPOSED RULES

2017-073 LR would amend two existing rules. References contained within the rules would be updated to reference the American National Standards Institute's standards B77.1-2011 and B77.1a-2012, instead of a version of the standards published in 2006. The reference that is being changed relates to safety requirements for passenger ropeways-aerial tramways, aerial lifts, surface lifts, tows, and conveyors. The proposed rule set would also add a provision to an existing rule, requiring that when portions of runs, slopes, or trails are closed that such closures be marked.

## FISCAL IMPACT OF PROPOSED RULES

The rules amended by 2017-073 LR would not have a fiscal impact on any unit of state or local government.
