

MEMORANDUM

**DATE:** November 10, 2014  
**TO:** Members of the House Appropriations Committee  
**FROM:** Mary Ann Cleary, Director *MAC*  
**RE:** Legislative Transfer Package 2014-9

Attached are legislative transfers proposed by the State Budget Office in a letter dated November 5, 2014. Pursuant to section 393 of the Management and Budget Act, a legislative transfer must be approved by a majority of both the House and Senate Appropriations Committees, with identical funding sources and dollar amounts, in order to become effective. This transfer package is scheduled to be considered by the House Appropriations Committee on Wednesday, November 12, 2014.

There are two basic types of legislative transfers, which have different effects on the overall level of appropriations in the state budget.

A **standard legislative transfer** shifts existing spending authorization between line items in a particular budget area, with no net change in total appropriations. Generally, such transfers are proposed when expenditures are higher than originally anticipated in one line item and lower than anticipated in another. These transfers can represent a shift of GF/GP funding between two line items, or merely a shift of spending authorization from same broad category of funding (federal, restricted, etc.) between the line items.

*As shown in the attached table, standard transfers in this package total \$84.6 million, which will shift 0.22% of total appropriations within the existing FY 2013-14 year-to-date state budget for the departments listed in this transfer package.*

A **contingency fund transfer** increases total line item appropriations in a budget area by moving contingency spending authorization from the boilerplate section of a budget act to a specific line item in order to recognize additional federal, private, local, or state restricted revenue that has become available since the original enactment of the budget. Absent the contingency fund transfer mechanism, this type of budget adjustment would be made through a supplemental appropriation bill.

*As shown in the attached table, contingency fund transfers in this package total \$3.3 million, which will increase the FY 2013-14 year-to-date state budget for the departments listed in this transfer package with contingency fund transfers by 0.05%.*

If you have questions about the transfers generally, please contact me. If you have questions about an individual transfer, please contact the HFA analyst assigned to that budget area. We can be reached at 373-8080.

This transfer shifts state general fund/general purpose authorization from the Behavioral Health Program Administration line item to the Community Residential and Support Services line item to satisfy contractual lease obligations for Community Mental Health Services Programs as a result of insufficient oil and gas royalty revenue. A similar transfer adjustment was approved during FY 2012-13. Authorization in this line is available because of lower than anticipated expenditures. This transfer is needed by book closing.

Funding source:						
Total other federal revenues	104,551,000	104,537,132*	13,868*	4,750,000		

This transfer request aligns financing across several line items and fully funds the department's Payroll Taxes and Fringe Benefits line item for FY 2013-14. This line supports the fringe benefit costs for 84% of the department's total staff, including all of its field operations staff, a total of over 9,500 FTEs. Fringe benefit costs, including insurance and terminal leave payouts were higher than anticipated in the current year, exceeding the department's original appropriation. Funding is available in the administrative line items indicated above based on projected department spending for FY 2013-14.

\*Year-to-date (YTD) expenditures, encumbrances, and balances by revenue source are estimates.

This transfer would provide for a shift of state restricted funds within the Regulatory Compliance, Market Conduct, and Licensing line item in order to fully support the operation costs associated with the database required by Section 22 of the Deferred Presentment Service Transaction Act (2005 PA 244). The database is operated by a third-party vendor via contract and 2005 PA 244 authorizes the operator of the database to impose and directly collect a verification fee, as approved by DIFS, on licensees for entering, accessing, and verifying data. Thus, the DIFS budget is essentially a pass-through for the verification fees paid by licensees to the third-party vendor. The costs associated with the database contract is determined by the volume of database activity and has increased during FY 2013-14 resultant from higher-than-anticipated deferred presentment transactions. Sufficient excess authorization within MBLSLA Fund is available to support the transfer.

State general fund/general purpose	18,350,500	17,291,985	1,088,515	1,800,000		

This transfer provides funding to offset a shortfall in income and assessments revenue at the Grand Rapids Veterans' Home. The shortfall totals \$1.8 million and is due to declining member census and higher-than-anticipated worker's compensation costs. Funding is available due to savings initiatives, efficiencies, and the timing of filling vacant positions within headquarters and armories and the Veterans Affairs Agency Administration.

This transfer request would utilize funds remaining in the Court Placed Special Education line to help fund other special education-related costs. Funds are available because required reimbursements for the added costs associated with court-placed special education students came in below initial estimates. The FY 2014-15 appropriation for Court Placed Special Education was reduced to \$10.0 million in anticipation of lower costs.

\$2.7 million of the available funding would be transferred into the Special Education Millage Equalization line, which subsidizes special education millage revenue in intermediate school districts that have low taxable values per pupil. The allocations are currently being prorated, because the actual costs exceeded initial estimates which were based on taxable values estimates available at the time the budget was enacted. This transfer would fully fund the statutory allocations.

\$350,000 of the available funding would be transferred into the Special Education - Other Foundations line to fully fund the foundation allowance costs for certain intermediate school district students including court-placed students, students in a juvenile detention or child caring facility, and students with an emotional impairment provided services by the Department of Community Health. Costs for required reimbursements exceeded estimates.

This transfer would provide sufficient authorization to support higher than anticipated expenditures associated with the completion of an extension of the feasibility study on the implementation of the Next Generation 9-1-1 (a.k.a. "NG9-1-1") information technology-based emergency 9-1-1 system prepared by Kimball Technology for the State 9-1-1 Committee pursuant to the Sec. 408(5) of the Emergency 9-1-1 Service Enabling Act of 1986 as amended by 2007 PA 165, which stipulated that "an amount not to exceed \$500,000.00 to the Department of State Police to study the feasibility of an IP-based 9-1-1 system in this state". This transfer would finance the final funding for the feasibility study; MSP expended approximately \$260,900 for the initial study in FY 2009-10 and anticipates expending approximately \$40,000 for the extension.

Sufficient authorization is available since MSP no longer performs broad "drug sweeps" of Department of Corrections (DOC) facilities, which required the utilization of and expenditure for state trooper overtime; currently, DOC notifies either local law enforcement or MSP about specific instances of DOC suspicion of drugs possessed by particular inmates.

This contingency transfer would increase authorization of revenue generated by Criminal Justice Information Center (CJIC) fees for expenditure on the development and implementation of the Automated Fingerprint Identification System (AFIS), which is intended to integrate recent advancements in latent fingerprint search accuracy and function as the focal point for all criminal and application fingerprint submissions. Revenue generated by CJIC fees exceeded the appropriation of CJIC fees by the amount requested in this transfer during FY 2013-14. Furthermore, the FY 2014-15 MSP budget appropriated \$2.2 million more CJIC fees than was included within the original FY 2013-14 appropriation, specifically for the development and implementation of AFIS. CJIC fee revenue is substantially generated from background checks using either fingerprints or the Internet Criminal History Access Tool (iCHAT). The amount of revenue generated by CJIC fees has increased in recent years due to increased demand for criminal history checks (e.g. those required prior to the issuance of Concealed Pistol Permits).

This transfer provides increased state general fund/general purpose resources to Commercial Forest Reserve, Purchased Lands, and Swamp and Tax Reverted Lands under the Payments in Lieu of Taxes (PILT) Program. Funding is available from the following three programs – Grants, Supervision of General Property Tax Law, and Tax and Economic Policy. These additional funds would be used to reimburse each local unit of government for the loss of PILT funding associated with the proration of PILT payments for Fiscal Years 2009-10, 2010-11, and 2011-12. This transfer will ensure adequate general funds are available to cover these costs. This transfer is requested as part of the year-end transactions and is tied to a corresponding book closing work project request for the same purpose.

Section 808(7) of 2014 PA 34 states that unexpended funds appropriated for the Economic Vitality Incentive Program (EVIP) shall be available for expenditure for Competitive Grant Assistance projects. EVIP funds are available due to some eligible local units not meeting requirements. The Competitive Grant Assistance Program supports mergers, interlocal agreements, and cooperative efforts for local government units that elect to combine government operations.
