This transfer would provide \$5.0 million in federal contingency fund authorization in accordance with PA 84 of 2015 (Article VI, Part 2, Sec. 219), to the Office of Great Start. Currently, the child care average monthly caseload is higher than was estimated for the May 2016 Consensus Revenue Estimating Conference, and it is likely the cost per case will also surpass the estimate before the end of the fiscal year. The total appropriation for this line is \$120,700,000. Total expenditures are projected to exceed this appropriation by up to \$5.0 million. This request will allow for the continued reimbursement of child care subsidies to providers without interruption through the remainder of FY 2015-16. There are sufficient federal funds in the existing award to cover the transfer. This transfer is necessary by September 30, 2016.

This request would transfer \$371,000 in GF/GP authorization from the Family Independence Program (FIP) appropriation to the State Disability Assistance Payments (SDA) line item appropriation. This transfer is needed due to projected SDA caseload costs exceeding those agreed upon at May 2016 caseload consensus. In the May 2016 caseload consensus agreement, the SDA Payments line item was reduced by \$2.1 million. The average monthly cost per case has been higher than the estimated cost of \$216.16 per case, resulting in a projected additional need of \$371,000 funding for SDA. Funds are available in the FAP and FIP line item appropriations due to lower than anticipated expenditures and caseload levels in those programs. This request would also transfer \$824,800 in federal authorization from the Food Assistance Program (FAP) Benefits appropriation to the SDA Payments appropriation. This transfer corrects a financing error made in the May 2016 caseload consensus supplemental appropriation. This transfer is requested by September 30, 2016.

This request would transfer \$103,000 in GF/GP authorization from the Family Independence Program (FIP) appropriation to the State Supplementation appropriation line item. This transfer is needed due to an increase in projected full year average of State Supplementation caseloads and costs per case. The State Supplementation program provides the federally-mandated state funding for aged, blind, and disabled individuals that receive federal Supplemental Security income (SSI) payments from the federal government. Funds are available to transfer from the FIP appropriation due to lower than anticipated FIP caseload levels. This transfer is requested by September 30, 2016.

This transfer shifts authorization between a number of Medicaid caseload lines to reflect current FY 2015-16 Medicaid spending and revenue collection estimates. Authorization is available in the Pharmaceutical Services line due to slower than budgeted growth in specialty pharmacy utilization and in the Hospital Services and Therapy line due to a continued decline in fee-for-service hospital inpatient utilization. Additional authorization is necessary in the Program of All-Inclusive Care for the Elderly (PACE), Medicaid Home- and Community-Based Services Waiver (MI Choice), Transportation, Federal Medicare Pharmaceutical Program, Autism Services, and Medicaid Mental Health Services lines due to greater than projected Medicaid expenditures paid out through these lines. Additional federal and state restricted authorization is needed in the Health Plan Services line due to increased access to Medicaid provider assessment and federal revenues.

This transfer request for the Public Service Commission allows for the receipt of federal gas pipeline safety revenues from the Department of Transportation to cover expenses associated with information technology desktop services and staffing costs. Expenditures have been higher than predicted for the Public Service Commission because an engineer has been charged to the gas pipeline safety grant and IT desktops have also been charged to the grant. Federal contingency fund authorization is available as provided in accordance with Public Act 84 of 2015, Article XIII, Section 223(1). This transfer is needed by book closing.

This transfer will provide sufficient spending authority for new federal grant funding provided by the U.S. Department of Agriculture and the U.S. Fish and Wildlife Service. The department has been awarded these federal grants to expand hunting access opportunities on private land in northern Michigan; to purchase coastal wetlands in Baraga County; and to study, restore and/or enhance habitat for a variety of species including bat, Karner Blue Butterfly, Eastern Massasauga, Native Bumble Bee, and Kirtland Warbler. Excess federal authority exists within the Great Lakes Restoration Initiative appropriation due to current year grants coming in less than the appropriated level. The transfer is needed to allow these federal funds to be used in FY 2015-16 and is needed by September 30, 2016.
