

MEMORANDUM

**DATE:** November 7, 2016  
**TO:** Members of the House Appropriations Committee  
**FROM:** Mary Ann Cleary, Director *MAC*  
**RE:** Legislative Transfer Packages 2016-9 and 2016-10

Attached are legislative transfers proposed by the State Budget Office in letters dated October 31, 2016 and November 3, 2016. Pursuant to section 393 of the Management and Budget Act, a legislative transfer must be approved by a majority of both the House and Senate Appropriations Committees, with identical funding sources and dollar amounts, in order to become effective. This transfer package is scheduled to be considered by the House Appropriations Committee on Wednesday, November 9, 2016.

There are two basic types of legislative transfers, which have different effects on the overall level of appropriations in the state budget.

A **standard legislative transfer** shifts existing spending authorization between line items in a particular budget area, with no net change in total appropriations. Generally, such transfers are proposed when expenditures are higher than originally anticipated in one line item and lower than anticipated in another. These transfers can represent a shift of GF/GP funding between two line items, or merely a shift of spending authorization from same broad category of funding (federal, restricted, etc.) between the line items.

*As shown in the attached table, standard transfers in this package total \$97.98 million, which will shift 0.18% of total appropriations within the existing FY 2015-16 year-to-date state budget.*

A **contingency fund transfer** increases total line item appropriations in a budget area by moving contingency spending authorization from the boilerplate section of a budget act to a specific line item in order to recognize additional federal, private, local, or state restricted revenue that has become available since the original enactment of the budget. Absent the contingency fund transfer mechanism, this type of budget adjustment would be made through a supplemental appropriation bill.

*As shown in the attached table, contingency fund transfers in this package total \$12.08 million, which will increase the FY 2015-16 year-to-date state budget by 0.02%.*

If you have questions about the transfers generally, please contact me. If you have questions about an individual transfer, please contact the HFA analyst assigned to that budget area. We can be reached at 373-8080.

The transfer to the Prisoner Health Care Services line item is needed to cover higher than anticipated costs for oncology-related services and treatment for prisoners. Costs are higher due to an increase of roughly 70% in the number of inmates requiring treatment for cancer (comparing second quarter FY 2015 data to second quarter FY 2016 data). The transfer to the Clinical and Mental Health Services and Support line item is necessary to cover a 5% increase in utilization of mental health-related services and treatment, and higher costs for anti-psychotic medications. Also, as a result of additional appropriations included in the budget to cover costs of Hepatitis C treatment for prisoners, additional funding is needed to cover the associated increased costs for Hepatitis C testing and laboratory-related services.

(Continued on next page)

Funding is available from the Worker's Compensation line item as a result of lower than anticipated workers compensation claims submitted by employees. The deployment of tasers in the facilities has resulted in a reduction in workplace injuries. Funding is available from the Administrative Hearings Officers line item due to a lower than anticipated number of hearings and subsequent payments to DLARA for hearing staff who review and rule on prisoner misconduct cases. Funding is available from the Healthy Michigan Plan Administration line item as a result of the receipt of additional federal Title XIX Medicaid revenues, which offset the need for the total amount of appropriated GF/GP. This transfer is requested as part of the FY 2015-16 book closing.

Funding source:						
State general fund/general purpose	23,752,200	24,735,875	(983,675)	985,000		

The transfer to the Prison Food Service line item is necessary to cover an inflationary food service increase required under the contract, as well as to cover higher average per meal costs. The transfer to the Transportation line item is needed to cover an increase in the number of prisoner transfers. The number of transfers is higher than anticipated as a result of the following: closure of the Pugsley Correctional Facility; elimination of the Leased Beds program; transfer of prisoners from the former Kinross Correctional Facility to the former Hiawatha Correctional Facility (which has since been renamed the new Kinross Correctional Facility); and transfer of prisoners from the new Kinross Correctional Facility to various other facilities following recent disturbances at the facility.

Funding is available from the Worker's Compensation line item as a result of lower than anticipated workers compensation claims submitted by employees. The deployment of tasers in the facilities has resulted in a reduction in workplace injuries. Funding is available from the County Jail Reimbursement Program line item due to reduced court dispositions. Funding is available from the Leased Beds and Alternatives to Leased Beds line item due to the expected elimination of the program starting on October 1, and moving prisoners back to state facilities, as space became available, prior to the October 1 program end date. Funding is available from the Pugsley Correctional Facility line item, again, due to the expected closure of the facility starting on October 1, and transferring staff and prisoners out to other state facilities as positions and bed space became available, prior to the October 1 closure date. This transfer is requested as part of the FY 2015-16 book closing.

Funding source:						
Federal revenues	15,681,700	15,812,518	(130,818)	800,000		

The transfer would provide \$800,000 in federal revenues to the Office of Great Start. The Office of Great Start operations line item had higher than expected costs in FY 2015-16 due to increased staffing and administrative costs attributable to new federal regulations requiring the state to dedicate additional resources toward targeted activities focused on improving the quality of infant and toddler care. Transfer funding will come from the Child Development and Care External Support line item, which provides funding to LARA and DHHS for childcare licensing and inspecting services. There is sufficient authority within the External Support line item to cover this transfer because LARA was in the process of hiring additional consultants during FY 2015-16 and did not expend its entire allocated amount.

This transfer would increase local revenue funding authorization in the Foster Care Payments line item to recognize the actual amount of local county chargeback revenues received during FY 2015-16. The Department receives local chargeback revenues in the Foster Care line item because counties must reimburse the state for 50% of the cost for out-of-home expenditures for foster care children who are state wards and are not eligible for federal Title IV-E funding. The Department requests this transfer as part of FY 2015-16 book closing.

This transfer requests a shift of Temporary Assistance for Needy Families (TANF) and State GF/GP authorization between the Family Independence Program and Public Assistance Field Staff line items. The transfer would help utilize more Child Care and Development Fund (CCDF) dollars within the Public Assistance Field Staff line item which has additional claimable spending for CCDF, but does not currently have the required State match available. This transfer would shift \$3.0 million GF/GP to the Public Assistance Field Staff line item to be used as additional State match for federal dollars. As a result of this transfer, the State would receive \$5.68 million more in CCDF revenue which would be used along with the \$3.0 million transferred GF/GP to replace \$8.66 million TANF funding in the Public Assistance Field Staff line item. Any saved TANF funding would carryforward and be available for expenditure in FY 2016-17. The Department requests this transfer as part of FY 2015-16 book closing.

This transfer aligns authorization to final FY 2015-16 expenditures between Medicaid physical and behavioral health program lines. Additional authorization is needed in the Autism Services line to address continued ramp up in reimbursement payments for the new Medicaid benefit and in the Medicaid Substance Use Disorder line to address greater than projected caseload expenditure. Funding is available for transfer in the Hospital Services and Therapy line due to continued decline in Medicaid fee-for-service inpatient expenses and in the Healthy Michigan Plan-Behavioral Health line due to lower than projected caseload expenditure in the HMP program.

This transfer increases the federal funds authorization for the Medicaid Outreach Cost Reimbursement to Local Health Departments line item, enabling the Department to expend available federal revenues \$1,200,000 in excess of the current authorization. Increased funding has been earned for qualified local Medicaid outreach expenditures. Federal Medicaid matching reimbursement of 50% of expenditures is available as eligible costs are incurred by local public health departments including costs through agreements with local nonprofit agencies. The Executive indicates that this transfer is needed as part of FY 2015-16 book closing.

Funding source:						
Total other federal revenues	27,657,000	28,365,211	(708,211)	710,000		

This transfer increases the federal funds authorization for the senior Nutrition Services line item, enabling the Department to expend available federal revenues \$710,000 in excess of the current authorization. Increased funding is available from ongoing federal grants for home-delivered meals for seniors and for purchase of food for senior meal preparation for congregate and home-delivered meals. The funds will be used for continuation of the existing program of meals for vulnerable elderly adults administered statewide through regional area agencies on aging. State funds are sufficient within the line item to meet the matching funds requirement of the federal home-delivered meals grant. The Executive indicates that this transfer is needed as part of FY 2015-16 book closing.

Federal contingency fund authorization is available for this transfer.

This transfer increases the state restricted authorization for the Respite Care Program line item, enabling the Department to expend available state restricted revenues \$148,000 in excess of the current authorization. Carryforward funding is available from the Senior Care Respite Fund. The funds will be used for the existing program through area agencies on aging of respite care services to assist family caregivers providing care to an elderly person in need of constant supervision. Respite may be provided in the home or in an adult day care setting. Revenue to the Senior Care Respite Fund is from escheats to the state from uncashed checks paid to subscribers or providers by the nonprofit mutual insurance corporation Blue Cross Blue Shield of Michigan. Statutory changes in 2010 (Act 197 PA 2010) shortened the unclaimed property period for uncashed checks creating a one-time acceleration of deposits to the Fund which are being expended by the program over a multi-year period. The Executive indicates that the carryforward funds are almost fully expended. A similar transfer was made earlier in the fiscal year for \$550,000, and a similar transfer was made in FY 2014-15. The Executive indicates that this transfer is needed as part of FY 2015-16 book closing.

State restricted contingency fund authorization is available for this transfer.

This transfer will align authorization with expenditures across Medicaid physical program lines for FY 2015-16. Additional authorization is needed in the Hospice Services, Healthy Michigan Plan, Long-Term Care Services, Medicaid Home-and Community-Based Services Waiver, Adult Home Help Services, Health Plan Services, and Maternal and Child Health lines due to greater than projected expenditure in these lines. The increase in the Hospital Disproportionate Share Payments line is the result of an outstanding receivable from FY 2010-11. Excess authorization is available in the Pharmaceutical Services line due to slower than anticipated growth in specialty pharmacy utilization, and in the Hospital Services and Therapy line due to a continued decline in fee-for-service hospital inpatient utilization.

\*Year-to-date (YTD) expenditures, encumbrances, and balances by revenue source are estimates.

This transfer would fund an anticipated shortfall in the state's school breakfast program appropriation, which was reduced in a mid-year supplemental from \$5.6 million to \$2.5 million based on FY 2014-15 expenditures. However, current FY 2015-16 expenditure estimates exceed the appropriation by \$1.2 million, and may increase further when school breakfast payment amounts are finalized in November. Funds in the foundation allowance - discretionary payment account are expected to be available after all other obligations are met, and otherwise would lapse.

Section 952(5) of Article VIII of 2015 PA 84 states, "The unexpended funds appropriated in part 1 for city, village, and township revenue sharing and the county incentive program shall be available for expenditure under the program for financially distressed cities, villages, or townships after the approval of transfers by the legislature pursuant to section 393(2) of the management and budget act, 1984 PA 431, MCL 18.1393." City, village, and township revenue sharing funds are available due to 11 eligible local units not meeting necessary requirements under the CVT Revenue Sharing program. The Financially Distressed Cities, Villages, or Townships Grant program supports grant funding to cities, villages, or townships with one or more conditions that indicate probable financial distress to pay for specific projects, services, or strategies that move a city, village, or township toward financial stability. This transfer is requested as part of the FY 2015-16 book closing.
