REVIEW	Single Business and Insurance taxes are applied to the value added of business activities. Two key components of the Single Business tax (SBT) base are profits and wages. For February/March of FY 2000-01, Single Business and Insurance tax collections were \$102.0 million or 27.3% below year-ago February/March. Some of the SBT weakness is due to the rate reduction from 2.2% in 1999 to 2.1% in 2000 and 2.0% in 2001. Single Business and Insurance tax collections for fiscal year-to-date totaled \$862.7 million—down \$103.3 million or 10.7% from the first five months of FY 1999-2000.
