APPROPRIATION BILL TERMS

Line Item: Specific funding amount in an appropriation bill which establishes spending authorization for a particular program or function (may be for a single purpose or for multiple purposes).

DEPARTMENT OF CORRECTIONS

The Michigan Department of Corrections (MDOC) operates under the codification of correctional statutes achieved by Public Act 232 of 1953. The Department's goal is "to provide the greatest amount of public protection while making the most efficient use of the state's resources." The Fiscal Year 2006-07 budget assumes a total average prison and camp population of 51,490. In addition to the costs of operating and maintaining the state's prison system, the budget funds: supervision of and residential programs for parolees and probationers; jail-based and community programs; education, health care, mental health treatment, and substance abuse testing and treatment programs for prisoners, parolees, and probationers; employee training; and maintenance of extensive offender databases and development of prisoner population projections.

SECTION 105: COMMUNITY CORRECTIONS

The Office of Community Corrections (OCC) is responsible for implementing 1988 PA 511, the Community Corrections Act. The office provides assistance and financial support to local communities for developing local comprehensive corrections plans and implementing community-based sanctions and services. By statute, grants are intended to ease jail and prison crowding pressures through utilization of local programs for offenders who would likely be sentenced to imprisonment in a state correctional facility or jail and who are nonviolent offenders whose placement in community programs would not threaten public safety. The Office of Community Corrections is housed within Field Operations.

This appropriation unit funds several local programs. Two programs, probation residential centers and community corrections comprehensive plans and services, are long-established grant programs created under PA 511. Another longstanding program, the county jail reimbursement program, existed only through budget act boilerplate until it was established in statute by 1998 PA 317. Several newer programs also are funded: the felony drunk driver jail reduction and community treatment program (established FY 2003-04), and the alternatives to prison jail and treatment programs (established FY 2004-05).

SECTION 106: CONSENT DECREES

The Consent Decree appropriation unit funds the bulk of costs associated with the two federal consent decrees under which the Department has been operating: USA v. Michigan, addressing operations at the former State Prison of Southern Michigan in Jackson (now split into several smaller prisons), Michigan Reformatory (in Ionia), and Marquette Branch Prison; and, Hadix v. Johnson, which is limited to the Jackson complex (but does not apply to Cooper Street or Cotton correctional facilities).

Under USA, the Department has been required to maintain certain standards with regard to sanitation, safety, medical and mental health care, access to courts, and out-of-cell activity. Hadix includes some similar requirements, but its hallmark feature is a requirement to divide the old State Prison of Southern Michigan into smaller units. Consent decree requirements generally have been extended to women's facilities under Glover v. Johnson, which mandates gender equity for female prisoners. This appropriation unit funds various compliance activities at affected facilities.

Recent developments have affected consent decrees and their requirements. Following enactment of the federal Prison Litigation Reform Act, the state sought, in April 1996, dissolution of the Hadix and DOJ consent decrees. In July 1996, DOJ requirements to provide college education programming at Marquette and the Michigan Reformatory were terminated. In November 1998, the mental health requirements of DOJ were terminated. In December 1998, the State of Michigan and the U.S. Department of Justice filed a joint motion for termination of the DOJ consent decree; it was terminated on February 3, 1999. Glover was resolved on December 14, 1999, when the U.S. Sixth Circuit Court of Appeals affirmed the district court's February 1999 order to terminate the case, and ended all federal court jurisdiction of the litigation. Both courts found that parity between male and female prisoners had been achieved.

Over twenty-five years after Hadix was initiated in 1980, this case may be approaching resolution. The federal district court terminated some of the medical care portions of this consent decree on February 18, 2000. Mental health portions of the consent decree were terminated in January 1, 2001. An order issued on June 27, 2001, terminated many of the remaining aspects of Hadix. As of October 2006, certain portions pertaining to medical and fire safety issues remain in force and under court review.
