| * The Fall to Fall decline in full-time equated pupils was about 200 pupils. The remaining decline in membership is caused by reverting the blend calculation from the FY 2021 superblend method ( $75 \%$ of Pre-COVID blend $+25 \%$ of FY 2021 blend) to the normal blend calculation ( $10 \%$ of prior year February count $+90 \%$ of current year Fall count). |  |  |  |  |
