Mary Ann Cleary, Deputy Director
RE: Federal Education Jobs Fund Act

On August 10, 2010, the Education Jobs Fund Act, Public Law No. 111-226, was enacted which authorized the Education Jobs Fund (Ed Jobs) Program. Ed Jobs provides \$10 billion in assistance to States to save or create jobs in education for the 2010-11 school year. Jobs funded through this award may include any job that provides educational and related services for early childhood, elementary and secondary education. The Ed Jobs Program is summarized in more detail below.

Michigan's Award

Ed Jobs funding will be allocated to states based on their relative population of people age 5 to 24. The total estimated allocation for Michigan is \$318.1 million. Of this total, the State may use up to 2%, or \$6.4 million, for administering the program while the balance of \$311.7 million would have to be distributed to districts.

Timeline

The US Department of Education (ED) provided guidance and made the application available last Friday, August 13, and will begin taking applications immediately. The Governor will have until September 9 to submit the application. The ED expects to distribute funds within 2 weeks of having received an approvable application, and is encouraging States to distribute funds to districts as soon as possible. The Legislature will have to enact a School Aid supplemental bill to appropriate the funds before they may be disbursed. Individual districts will not have to submit applications to the State for funding as long as they submitted an application for American Recovery and Reinvestment Act (ARRA) - State Fiscal Stabilization Fund (SFSF) funding in 2009.

The State must distribute all of the funds to districts for the 2010-11 school year. Districts are encouraged to use the funds as soon as possible, but if they have remaining funds at the close of the school year, they may carry forward funds into the following year and have until September 30, 2012 to fully expend them.

Assurances

In order to receive funding the Governor must make several assurances that the State will comply with all applicable statutes and regulations, will monitor districts' use of funds and comply with ARRA reporting requirements and assurances. Most notably these assurances include the two following provisions:

- First, the State is not allowed to use Ed Jobs funds, either directly or indirectly, to
 - a) Establish, restore, or supplement a rainy-day fund.
 - b) Supplant State funds in a manner that has the effect of establishing, restoring, or supplementing a rainy-day fund.
 - c) Reduce or retire debt obligations incurred by the State.
 - d) Or, supplant State funds in a manner that has the effect of reducing or retiring debt obligations incurred by the State.

- Second, the State must meet one of the four Maintenance of Effort (MOE) methods described below. Under each method the State must separately meet MOE requirements for both Elementary and Secondary (K-12) Education and for Higher Education, even though none of funds may be used for Higher Education. Higher Education support excludes capital projects, research and development, and student tuition and fees. Methods 3 and 4 are available only to States with State tax collections for calendar year 2009 that are less than State tax collections for calendar year 2006. The State must use the same MOE method for both K-12 and Higher Education.
 - Method 1: The State must maintain, for FY 2010-11, the dollar level of State support for K-12 (either in the aggregate or based on total per pupil expenditures) and the same dollar level of State support for Higher Education as provided in FY 2008-09.
 - Method 2: The State must maintain, for FY 2010-11, State support for each K-12 and Higher Education at a percentage of total State revenues that is equal to or greater than the percentage for FY 2009-10.
 - Method 3: If 2009 tax collections are less than 2006 tax collections, the State must maintain, for FY 2010-11, the dollar level of State support for K-12 (in the aggregate) and the same dollar level of State support for Higher Education as provided in FY 2005-06.
 - Method 4: If 2009 tax collections are less than 2006 tax collections, the State must maintain, for FY 2010-11, State support for each K-12 and Higher Education at a percentage of total State revenues that is equal to or greater than the percentage for FY 2005-06.

Unlike under the ARRA, the ED Secretary does not have authorization to waive any of the requirements of this program.

Distribution Method

A State must distribute its funds to districts either through the State's primary elementary and secondary education funding formula or on the basis of districts' relative share of Federal Title I - Part A funding, which is primarily based on poverty levels. The Governor must identify a distribution method in the State's application. The attached table illustrates the potential variation in individual district awards depending on the method of distribution. The table compares three options we believe could be used to distribute the funds, but there may be additional alternatives.

Allowable Uses

A district may use Ed Jobs funds for compensation and benefits and other expenses related to retaining existing employees, recall or rehire former employees, or hire new employees. Compensation and Benefits may include but are not limited to salaries, performance bonuses, health insurance, retirement benefits, early retirement incentives, pension fund contributions, tuition reimbursement, student loan repayment assistance, transportation subsidies, and reimbursement for child care. A district may use funds to restore reductions in salaries and benefits or to provide salary increases or eliminate furlough days for FY 2010-11.

A district may use Ed Jobs funds for teachers and other employees who provide school-level educational and related services. In addition to teachers this may include but is not limited to principals, academic coaches, teacher trainers, classroom aides, counselors, librarians, secretaries, informational technology staff, social workers, psychologists, physical, speech, and occupational therapists, nurses, athletic coaches, security officers, custodians, bus drivers, and cafeteria workers.

A district may not use Ed Jobs funds for general administrative expenses related to the Superintendent's office or the board of education or for support services like fiscal services or human resources. A district may not use Ed Jobs for individuals working under contract who are not employees of the district.
