

Good Morning Everyone

My name is Tyrise Carey and I live with autism. I am in the 10th grade and I attend Detroit School of Arts (DSA). I have maintained a 3.5 GPA throughout my school journey.

I couldn't have done this if it wasn't for Ms. Bonjohn, Ms. Leonard, Ms. Floyd, Ms. Klatt, Ms. Wells and the rest of my village.

I am an artist, and I also have my YouTube ninja turtle style power carey, and I also work at a tattoo shop to do tattooing. I will be working in a day care this summer. And my goal is to go college of creative studies.

This village has helped me since I was 2 years old. I can say that my village had grown just like I have. My school district has provided me the resources every step of the way. Without these resources, programs and the staff I can say I wouldn't be this successful.

I'm asking everyone here to fully fund Special Education, without the fund's students like me will Be upset, nervous and confused. Students will struggle without their resources support. We will be left behind and will not reach our goals.

Thank you
