Overview

The Michigan Department of State Police (MSP) provides general law enforcement services throughout the state and provides for the development and coordination of state programs, technologies, and specialized services that enhance enforcement and emergency response capabilities for the entire public safety community.

Part 1 (line items) follows a line item/schedule of programs structure that is similar to the structure of the FY 2013-14 budget, in which the "schedule of programs" in the bill aligns to the department's core services. Part 2 (boilerplate) is significantly reorganized, although much of the FY 2013-14 language remains intact. Generally, each core services has one or more pairs of related boilerplate sections for each program. The first section (Sec. ###) describes the legal authority and other requirements under which a particular program operates, including specific legal citations. The second section (Sec. ###a) describes the performance metrics or other reporting requirements that apply to each program.

These adjustments were generally made in prior years through the internal transfers permitted by the bill's schedule of program structure. These adjustments also reduce excess appropriation authorization (but not actual spending) for various program lines. The bill also makes two dozen other internal transfers align appropriations with MSP's actual organizational structure. These transfers net out to zero.	IDG	N/A	444,100
