Prior to the reduction in the number of authorized race dates due to budget deficits, the executive director of the Michigan gaming control board shall provide notice to the certified horsemen's organizations with an opportunity to respond with alternatives. (2) Program participant contributions and local program reimbursement for the curfew monitoring program appropriated in part 1 are related to program expenditures and may be used to offset expenditures for this purpose.

(3) Included in the appropriation in part 1 is adequate funding to implement the curfew monitoring program to be administered by the department. The curfew monitoring program is intended to provide sentencing judges and county sheriffs in coordination with local community corrections advisory boards
access to the state's curfew monitoring program to reduce prison admissions and improve local jail utilization. The department shall
determine the appropriate distribution of the curfew monitor units throughout the state based upon locally developed comprehensive corrections plans under the community corrections act, 1988 PA 511, MCL 791.401 to 791.414.

(4) For a fee determined by the department, the department shall provide counties with the curfew monitor equipment, replacement parts, administrative oversight of the equipment's operation, notification of violators, and periodic reports regarding county program participants. Counties are responsible for curfew monitor equipment installation and service. For an additional fee as determined by the department, the department shall provide staff to install and service the equipment. Counties are responsible for the coordination and apprehension of program violators.

(5) Any county with curfew monitor charges outstanding over 60 days shall be considered in violation of the community curfew monitor program agreement and lose access to the program.

Sec. 612. (1) The department shall review and revise as necessary policy proposals that provide alternatives to prison for offenders being sentenced to prison as a result of technical probation violations and technical parole violations. To the extent the department has insufficient policies or resources to affect the continued increase in prison commitments among these offender populations, the department shall explore other policy options to allow for program alternatives, including department or OCC-funded
programs, local level programs, and programs available through private agencies that may be used as prison alternatives for these offenders.

(2) By April 1, the department shall provide a report to the senate and house appropriations subcommittees on corrections, the legislative corrections ombudsman, the senate and house fiscal agencies, and the state budget director on the number of all parolees returned to prison and probationers sentenced to prison for either a technical violation or new sentence during the preceding fiscal year. The report shall include the following information for probationers, for parolees after their first parole, and for parolees who have been paroled more than once:

(a) The numbers of parole and probation violators returned to or sent to prison for a new crime with a comparison of original versus new offenses by major offense type: assaultive, nonassaultive, drug, and sex.

(b) The numbers of parole and probation violators returned to or sent to prison for a technical violation and the type of violation, including, but not limited to, zero gun tolerance and substance abuse violations. For parole technical rule violators, the report shall list violations by type, by length of time since release from prison, by the most recent violation, and by the number of violations occurring since release from prison.

(c) The educational history of those offenders, including how many had a high school equivalency or high school diploma prior to incarceration in prison, how many received a high school equivalency while in prison, and how many received a vocational
certificate while in prison.

(d) The number of offenders who participated in the reentry program versus the number of those who did not.

(e) The unduplicated number of offenders who participated in substance abuse treatment programs, mental health treatment programs, or both, while in prison, itemized by diagnosis.

Sec. 615. (1) The department shall submit a report containing a list detailing the number of prisoners who have received life imprisonment sentences with the possibility of parole and who are currently eligible for parole to the senate and house appropriations subcommittees on corrections, the senate and house fiscal agencies, the legislative corrections ombudsman, and the state budget director by January 1.

(2) The report shall include the following information on parolable lifers who have served more than 25 years: prisoner name, MDOC identification number, prefix, offense for which life term is being served, county of conviction, age at time offense was committed, current age, race, gender, true security classification, dates of parole board file reviews, dates of parole board interviews, parole guideline scores, and reason for decision not to release.

Sec. 616. The parole board shall review its policies related to the review and parole of those offenders serving a parolable life sentence with consideration given to those who do not pose an ongoing risk to society.

HEALTH CARE
Sec. 802. As a condition of expenditure of the funds appropriated in part 1, the department shall provide the senate and house of representatives appropriations subcommittees on corrections, the legislative corrections ombudsman, the senate and house fiscal agencies, and the state budget director with quarterly reports on physical and mental health care detailing quarterly and fiscal year-to-date expenditures itemized by vendor, allocations, status of payments from contractors to vendors, and projected year-end expenditures from accounts for prisoner health care, mental health care, pharmaceutical services, and durable medical equipment.

Sec. 803. (1) The department shall assure that all prisoners, upon any health care treatment, are given the opportunity to sign a release of information form designating a family member or other individual to whom the department shall release records information regarding a prisoner. A release of information form signed by a prisoner shall remain in effect for 1 year, and the prisoner may elect to withdraw or amend the release form at any time.

(2) The department shall assure that any such signed release forms follow prisoners upon transfer to another department facility or to the supervision of a parole officer.

(3) The form shall be placed online, on a public website managed by the department.

Sec. 804. The department shall report quarterly to the senate and house appropriations subcommittees on corrections, the legislative corrections ombudsman, the senate and house fiscal agencies, and the state budget director on prisoner health care
utilization. The report shall include the number of inpatient
hospital days, outpatient visits, emergency room visits, and
prisoners receiving off-site inpatient medical care in the previous
quarter, by facility.

Sec. 806. From the funds appropriated in part 1 for substance
abuse testing and treatment services, the department shall
implement the living in recovery program serving at least 250
offenders in the current fiscal year. The purpose of this new
program is to cost-effectively target relapse prevention and help
develop sobriety support systems to deter further criminal behavior
and recidivism. The department shall track the outcome of the
program to determine the number of participants that succeeded, the
number that failed and were returned to prison, and the number that
failed, but were not returned to prison.

Sec. 807. From the funds appropriated in part 1 for clinical
and mental health services and support, the department shall expand
its mental health treatment and sex offender treatment programs.
The purpose of this enhancement is to address increased caseloads,
reduce the number of prisoners on the waiting list of prisoners who
are past their earliest release date, and reduce the percentage of
prisoners readmitted to mental health programs at their previous
level of care.

Sec. 812. (1) The department shall provide the department of
health and human services with a monthly list of prisoners newly
committed to the department of corrections. The department and the
department of health and human services shall enter into an
interagency agreement under which the department of health and
human services provides the department of corrections with monthly
lists of newly committed prisoners who are eligible for Medicaid
benefits in order to maintain the process by which Medicaid
benefits are suspended rather than terminated. The department shall
assist prisoners who may be eligible for Medicaid benefits after
release from prison with the Medicaid enrollment process prior to
release from prison.

(2) The department shall provide the senate and house
appropriations subcommittees on corrections, the legislative
corrections ombudsman, the senate and house fiscal agencies, and
the state budget director with quarterly updates on the utilization
of Medicaid benefits for prisoners.

CORRECTIONAL FACILITIES ADMINISTRATION
Sec. 904. The department shall calculate the per prisoner/per
day cost for each prisoner security custody level. This calculation
shall include all actual direct and indirect costs for the previous
fiscal year, including, but not limited to, the value of services
provided to the department by other state agencies and the
allocation of statewide legacy costs. To calculate the per
prisoner/per day costs, the department shall divide these direct
and indirect costs by the average daily population for each custody
level. For multilevel facilities, the indirect costs that cannot be
accurately allocated to each custody level can be included in the
calculation on a per-prisoner basis for each facility. A report
summarizing these calculations and the direct and indirect costs
included in them shall be submitted to the senate and house
appropriations subcommittees on corrections, the legislative
corrections ombudsman, the senate and house fiscal agencies, and
the state budget director not later than December 15.

Sec. 906. Any local unit of government or private nonprofit
organization that contracts with the department for public works
services shall be responsible for financing the entire cost of such
an agreement.

Sec. 907. The department shall report by March 1 to the senate
and house appropriations subcommittees on corrections, the
legislative corrections ombudsman, the senate and house fiscal
agencies, and the state budget director on academic and vocational
programs. The report shall provide information relevant to an
assessment of the department's academic and vocational programs,
including, but not limited to, all of the following:

(a) The number of instructors and the number of instructor
vacancies, by program and facility.

(b) The number of prisoners enrolled in each program, the
number of prisoners completing each program, the number of
prisoners transferred to another facility while enrolled in a
program and the reason for transfer, the number of prisoners
enrolled who repeat the program, and the number of prisoners on
waiting lists for each program, all itemized by facility.

(c) The steps the department has undertaken to improve
programs, track records, accommodate transfers and prisoners with
health care needs, and reduce waiting lists.

(d) The number of prisoners paroled without a high school
diploma and the number of prisoners paroled without a high school
(e) An explanation of the value and purpose of each program, for example, to improve employability, reduce recidivism, reduce prisoner idleness, or some combination of these and other factors.

(f) An identification of program outcomes for each academic and vocational program.

(g) An explanation of the department's plans for academic and vocational programs, including plans to contract with intermediate school districts for high school equivalency and high school diploma programs.

(h) The number of prisoners not paroled at their earliest release date due to lack of a high school equivalency, and the reason those prisoners have not obtained a high school equivalency.

Sec. 908. From the funds appropriated in part 1, the department shall explore the feasibility of establishing an online career high school education pilot program, or other alternatives to providing prisoners with a high school diploma in lieu of a high school equivalency. The department shall explore establishing outside partnerships to assist the department with providing high school diplomas. The department shall submit a report by October 15 to the senate and house appropriations subcommittees on corrections, the senate and house fiscal agencies, the legislative corrections ombudsman, and the state budget director that describes the necessary steps the department would have to take, the resources the department would need, any departmental organizational changes that would be required, and the feasibility of the department's forming outside partnerships to assist with
providing prisoners with a high school diploma in lieu of a high school equivalency.

Sec. 909. From the funds appropriated in part 1, the department shall focus on providing career-based educational programming for prisoners, to include vocational trade programs and employment readiness programs.

Sec. 910. The department shall allow the Michigan Braille transcribing fund program to operate at its current location. The donation of the building by the Michigan Braille transcribing fund at the G. Robert Cotton Correctional Facility in Jackson is acknowledged and appreciated. The department shall continue to encourage the Michigan Braille transcribing fund program to produce high-quality materials for use by the visually impaired.

Sec. 911. By March 1, the department shall report to the senate and house appropriations subcommittees on corrections, the senate and house fiscal agencies, the legislative corrections ombudsman, and the state budget director the number of critical incidents occurring each month by type and the number and severity of assaults, escape attempts, suicides, and attempted suicides occurring each month at each facility during the immediately preceding calendar year.

Sec. 913. (1) From the funds appropriated in part 1, the department shall focus on providing required programming to prisoners who are past their earliest release date because of not having received the required programming. Programming includes, but is not limited to, violence prevention programming, assaultive offender programming, sexual offender programming, substance abuse
treatment programming, thinking for a change programming, and any other programming that is required as a condition of parole.

(2) Any prisoner required to complete programming shall be transferred to a facility where that program is available in order to accomplish timely completion of that program prior to the expiration of his or her minimum sentence and eligibility for parole. Nothing in this section should be deemed to make parole denial appealable in court.

(3) The department shall submit a quarterly report to the members of the senate and house appropriations subcommittees on corrections, the senate and house fiscal agencies, the state budget director, and the legislative corrections ombudsman detailing enrollment in sex offender programming, assaultive offender programming, violent offender programming, and thinking for change. At a minimum, the report shall include the following:

(a) A full accounting of the number of individuals who are required to complete the programming, but have not yet done so.

(b) The number of individuals who have reached their earliest release date, but who have not completed required programming.

(c) A plan of action for addressing any waiting lists or backlogs for programming that may exist.

Sec. 924. The department shall evaluate all prisoners at intake for substance abuse disorders, serious developmental disorders, serious mental illness, and other mental health disorders. Prisoners with serious mental illness or serious developmental disorders shall not be removed from the general population as a punitive response to behavior caused by their
serious mental illness or serious developmental disorder. Due to persistent high violence risk or severe disruptive behavior that is unresponsive to treatment, prisoners with serious mental illness or serious developmental disorders may be placed in secure residential housing programs that will facilitate access to institutional programming and ongoing mental health services. A prisoner with serious mental illness or serious developmental disorder who is confined in these specialized housing programs shall be evaluated or monitored by a medical professional at a frequency of not less than every 12 hours.

Sec. 925. By March 1, the department shall report to the senate and house appropriations subcommittees on corrections, the senate and house fiscal agencies, the legislative corrections ombudsman, and the state budget director on the annual number of prisoners in administrative segregation between October 1, 2015 and September 30, 2016, and the annual number of prisoners in administrative segregation between October 1, 2015 and September 30, 2016 who at any time during the current or prior prison term were diagnosed with serious mental illness or have a developmental disorder and the number of days each of the prisoners with serious mental illness or a developmental disorder have been confined to administrative segregation.

Sec. 929. From the funds appropriated in part 1, the department shall do all of the following:

(a) Ensure that any inmate care and control staff in contact with prisoners less than 18 years of age are adequately trained with regard to the developmental and mental health needs of
prisoners less than 18 years of age. By April 1, the department
shall report to the senate and house appropriations subcommittees
on corrections, the senate and house fiscal agencies, and the state
budget director on the training curriculum used and the number and
types of staff receiving annual training under that curriculum.

(b) Provide appropriate placement for prisoners less than 18
years of age who have serious mental illness, serious emotional
disturbance, or a serious developmental disorder and need to be
housed separately from the general population. Prisoners less than
18 years of age who have serious mental illness, serious emotional
disturbance, or a serious developmental disorder shall not be
removed from an existing placement as a punitive response to
behavior caused by their serious mental illness, serious emotional
disturbance, or a serious developmental disorder. Due to persistent
high violence risk or severe disruptive behavior that is
unresponsive to treatment, prisoners less than 18 years of age with
serious emotional disturbance, serious mental illness, or serious
developmental disorders may be placed in secure residential housing
programs that will facilitate access to institutional programming
and ongoing mental health services. A prisoner less than 18 years
of age with serious mental illness, serious emotional disturbance,
or a serious developmental disorder who is confined in these
specialized housing programs shall be evaluated or monitored by a
medical professional at a frequency of not less than every 12
hours.

(c) Implement a specialized reentry program that recognizes
the needs of prisoners less than 18 years old for supervised
reentry.

Sec. 942. The department shall ensure that any contract with a public or private party to operate a facility to house state prisoners includes a provision to allow access by both the office of the legislative auditor general and the office of the legislative corrections ombudsman to the facility and to appropriate records and documents related to the operation of the facility. These access rights for both offices shall be the same for the contracted facility as for a general state-operated correctional facility.

INFORMATION TECHNOLOGY

Sec. 1000. From the funds appropriated in part 1 for information technology services and projects, the department shall expand bandwidth in 27 correctional facilities and 113 field operations offices. The purpose of this bandwidth expansion is to support critical information technology systems that provide platforms for several mandated programs and department cost savings efforts.

MISCELLANEOUS

Sec. 1009. The department shall make an information packet for the families of incoming prisoners available on the department's website. The information packet shall be updated by February 1 of each year. The packet shall provide information on topics including, but not limited to: how to put money into prisoner accounts, how to make phone calls or create Jpay email accounts,
how to visit in person, proper procedures for filing complaints or
grievances, the rights of prisoners to physical and mental health
care, how to utilize the offender tracking information system
(OTIS), truth-in-sentencing and how it applies to minimum
sentences, the parole process, and guidance on the importance of
the role of families in the reentry process. The department is
couraged to partner with external advocacy groups and actual
families of prisoners in the packet-writing process to ensure that
the information is useful and complete.

ONE-TIME APPROPRIATIONS

Sec. 1100. From the funds appropriated in part 1 for new
custody staff training, the department shall increase the training
capacity for new custody staff by 350 officers. The purpose of this
academy is to address higher than normal attrition of correction
officers and to decrease overtime costs.

(2) Not later than October 1, 2016, the department, in collaboration with the department of education and the department of licensing and regulatory affairs, shall develop a strategic statewide plan for the testing for lead in water by public and private prekindergarten through twelfth grade schools served by municipal water systems that provides criteria for prioritizing what facilities, water pipes, and plumbing fixtures should be tested. At a minimum, the age of the facility should be considered, as well as fixtures that are high risk, such as drinking fountains, ice makers, kitchen taps, or any other fixtures that deliver water commonly used for human consumption. The strategic statewide plan shall also identify the proper sampling and analysis protocols for testing for lead in water and measures for reducing lead exposure as recommended by the United States Environmental Protection Agency. If test results demonstrate lead levels that are not in compliance with state or federal standards for safe drinking water, the department may collaborate with the school to implement a plan to reduce lead levels in that school's drinking water.

(3) Not later than October 1, 2016, the department shall provide notice to all public and private prekindergarten through twelfth grade schools of the strategic statewide plan and the application process for reimbursement of voluntary testing for lead in water.
(4) The application for reimbursement shall include the
collection of data that, at a minimum, allows the department to
prepare a report to the governor, the legislature, the house and
senate fiscal agencies, and the state budget director not later
than 60 days after the end of the state fiscal year containing all
of the following information:

(a) The total number of fixtures within the public and private
prekindergarten through twelfth grade schools providing water for
human consumption that met the prioritization criteria contained in
the strategic statewide plan.

(b) The total number of fixtures tested for lead using the
sampling and analysis protocols recommended in the strategic
statewide plan.

(c) The number of fixtures tested that showed elevated levels
of lead.

(d) A description of the measures implemented by the public
and private prekindergarten through twelfth grade school to reduce
elevated levels of lead.

(e) Any financial or other information that the department
determines would be necessary to properly reimburse public and
private prekindergarten through twelfth grade schools.

(f) Assurance that the public and private prekindergarten
through twelfth grade school has posted the testing results on its
website in a form and manner approved by the department.

(5) Payments under this section may be made as determined by
the department for eligible testing reimbursement requests. If
eligible testing requests for reimbursement exceed the
appropriation contained in this section, those reimbursement requests shall be paid from funding made available in the following fiscal year.

(6) As used in this section, "eligible testing reimbursement request" means a reimbursement request for reasonable costs associated with water testing that occurred after October 1, 2015 that meets the prioritization criteria in the strategic statewide plan and that has been tested according to the sampling and analysis protocols contained in the strategic statewide plan.

under part 55 of the natural resources and environmental protection

31, 2016, the department shall compile and make available to the public on a publicly accessible website a report containing a summary document of each completed asset management plan for any stormwater, asset management, or wastewater grant awarded to a local unit of government to fund the development of a plan. As a condition of receiving a stormwater, asset management, or wastewater grant, a local unit of government shall make its asset management plan available to the department upon request when completed and shall retain copies of the plan that can be made available to the public for a minimum of 15 years. The department shall make available a summary document of each plan on a publicly accessible website by September 30 of the year it was completed. The summary document shall include a summary of the plan, the plan's major identified assets, and contact information for the local unit of government.

Sec. 604. The appropriation in part 1 for oil, gas, and mineral services is to provide for the study and mapping of Michigan's geological resources to identify their potential social and economic benefits and to provide for the protection of the associated resource values and the environment. An advisory committee consisting of the director, the directors of the departments of natural resources and agriculture and rural development, and the chief of the department's office of oil, gas, and minerals shall develop an annual work plan for the survey to meet the strategic needs of the state.

(4) In the event that a project identified in part 1 is terminated after final design is complete, advances made on behalf of the state building authority for the costs of final design shall be repaid to the general fund in a manner recommended by the director.

Sec. 1102. (1) State building authority funding to finance construction or renovation of a facility that collects revenue in excess of money required for the operation of that facility shall not be released to a university or community college unless the institution agrees to reimburse that excess revenue to the state building authority. The excess revenue shall be credited to the general fund to offset rent obligations associated with the
retirement of bonds issued for that facility. The auditor general shall annually identify and present an audit of those facilities that are subject to this section. Costs associated with the administration of the audit shall be charged against money recovered pursuant to this section.

(2) As used in this section, "revenue" includes state appropriations, facility opening money, other state aid, indirect cost reimbursement, and other revenue generated by the activities of the facility.

Sec. 1103. The state building authority shall provide to the JCOS and senate and house fiscal agencies a report relative to the status of construction projects associated with state building authority bonds as of September 30 of each year, on or before October 15, or not more than 30 days after a refinancing or restructuring bond issue is sold. The report shall include, but is not limited to, the following:

(a) A list of all completed construction projects for which state building authority bonds have been sold, and which bonds are currently active.

(b) A list of all projects under construction for which sale of state building authority bonds is pending.

(c) A list of all projects authorized for construction or identified in an appropriations act for which approval of schematic/preliminary plans or total authorized cost is pending that have state building authority bonds identified as a source of financing.

(1) and (2) and how this information is tracked.

care rate that was paid or would have been paid to the adoptive parent for the adoptee in a family foster care placement, and this amount shall be increased to reflect any increase in the standard age appropriate foster care rate.

(2) "Determination of care rate" as described in this section means a supplemental payment to the standard age appropriate foster care rate that may be justified when extraordinary care or expense is required. The supplemental payment is based on 1 or more of the following case situations where additional care is required of the foster care provider or adoptive parent or an additional expense exists:

(a) Physically disabled children for whom the adoptive parent must provide measurably greater supervision and care.

(b) Children with special psychological or psychiatric needs that require extra time and measurably greater amounts of care and attention by the adoptive parent.

Such a person must actively participate in a substance abuse treatment program, and the assistance must be paid to a third party or through vendor payments. For purposes of this section, substance abuse treatment includes receipt of inpatient or outpatient services or participation in alcoholics anonymous or a similar program.

If the appellate defender appointed under section 3 of the appellate defender act, 1978 PA 620, MCL 780.713, receives federal grant funding from the United States Department of Justice in excess of the amount appropriated in part 1, the office of appellate defender may receive and expend grant funds in an amount not to exceed $300,000.00 as other federal grants.

Sec. 322a. If Byrne formula grant funding is awarded to the Michigan indigent defense commission, the Michigan indigent defense commission may receive and expend Byrne formula grant funds in an amount not to exceed $250,000.00 as an interdepartmental grant from the department of state police. The Michigan indigent defense commission created under section 5 of the Michigan indigent defense commission act, 2013 PA 93, MCL 780.985, may receive and expend federal grant funding from the United States Department of Justice in an amount not to exceed $300,000.00 as other federal grants.

Sec. 324. From the funds appropriated in part 1, the Michigan indigent defense commission shall submit a report by September 30 to the senate and house appropriations subcommittees on judiciary, the senate and house fiscal agencies, and the state budget director on the incremental costs associated with the standard development process, the compliance plan process, and the collection of data from all indigent defense systems and attorneys providing indigent defense. Particular emphasis shall be placed on those costs that
may be avoided after standards are developed and compliance plans are in place.

Sec. 325. (1) From the funds appropriated in part 1 for the Michigan indigent defense commission, the commission shall increase the total number of staff by 10 FTE positions and begin bringing the Michigan criminal defense system into compliance with the right to counsel requirements of the Sixth Amendment to the United States Constitution and section 20 of article I of the state constitution of 1963. The purpose of this program expansion is to implement minimum standards, rules, and procedures to guarantee the right of indigent defendants to the assistance of proficient counsel, to collect comprehensive data from all indigent defense systems and attorneys providing indigent defense, and to monitor and audit county compliance plans.

(2) The commission shall identify specific outcomes and performance measures for this initiative based on the minimum standards approved by the Michigan supreme court, including, but not limited to, the following:

(a) Monitoring the success of approved minimum standards, including increased training and education of trial-level defense attorneys, prompt meetings between attorneys and clients, increased access to and use of experts and investigators, and increased use of counsel at first appearance.

(b) The commission shall collect data on the standards approved by the Michigan supreme court and shall work to identify metrics associated with the approved standards.

(c) Monitoring the number of first-time offenders sentenced to
serve prison time within the department of corrections to determine if there is a measurable decline as a result of the standards approved by the Michigan supreme court, including training and education requirements, required meetings between client and counsel, increased use of experts and investigators, and the provision of attorneys at first appearance.

ONE-TIME APPROPRIATIONS

Sec. 401. From the funds appropriated in part 1 for drug treatment courts, the judiciary shall increase funding available for establishing problem-solving courts. The purpose of this program expansion is to increase the number of participants and to decrease recidivism rates.

Sec. 402. (1) The state appellate defender office attorneys and support staff shall increase by 11 FTE positions to ensure Michigan compliance with Montgomery v Louisiana, 577 US ____ (2016). The purpose of the program expansion is to ensure competent, resourced, and supervised counsel in cases involving the resentencing of juvenile lifers. The representation by SADO counsel will create opportunities for release, saving prison costs for the state.

(2) From the funds appropriated in part 1, the state appellate defender office shall submit a report by September 30 to the senate and house appropriations subcommittees on judiciary, the senate and house fiscal agencies, and the state budget director on the number of juvenile lifer cases investigated and prepared by the state appellate defender office. The report shall include a calculation
of hours spent and focus on incremental costs associated with investigating and conducting a robust examination of each case, with particular emphasis on those costs that may be avoided after the cases have been disposed.

(5) The department shall report on grant activities to the subcommittees and the state budget office by January 15, 2018. The report shall include a description of each institution’s activities pertaining to its grant.

Sec. 903. (1) Funding provided in part 1 for the smart 9-1-1 pilot shall be used as matching funds to be paid to local units of government to match up to 1/2 the costs for the implementation of smart 9-1-1.

(2) If additional state funds become available for the smart 9-1-1 pilot, the total amount to be paid to local units of
government shall increase proportionally to provide matching funds equal to the proportional change of the funding increase.

(3) It is the intent of the legislature to assist local units of government to implement a standard smart 9-1-1 pilot in order to create a statewide public safety emergency information portal, a hosted supplemental 9-1-1 database containing information entered voluntarily by individuals via a secure website and updated twice annually to reflect the most current information to be automatically delivered to public safety answering points that make the information available to first responders during an emergency, but only when a 9-1-1 call is placed. The funds appropriated in part 1 for smart 9-1-1 pilot shall be used to pay local units of government for 1/2 of the total costs of any, or all, of the following:

(a) One year of standard smart 9-1-1 services.

(b) Implementation, training, support, maintenance, and standard upgrades will be included with the standard smart 9-1-1 service.
