**Overview**

The Department of Licensing and Regulatory Affairs (LARA) is organized into four principal functions: 1) Licensing and Regulation, which implements and enforces Michigan laws pertaining to, commercial and occupational, construction and fire safety, healthcare, public utility, and liquor regulation; 2) Employment Security and Workplace Safety, which administers unemployment insurance, worker's compensation insurance, occupational safety and health standards, labor and wage laws, and vocational rehabilitation services for the blind; 3) the Michigan Administrative Hearing System (MAHS), a quasi-judicial agency which centralizes and conducts administrative hearings for agencies throughout state government; and 4) the Office of Regulatory Reinvention (ORR), which oversees administrative rule-making and evaluates the state's regulatory infrastructure. The agencies within LARA are primarily supported by various federal grants and revenue generated through numerous fees collected from regulated entities.

**Major Budget Changes From FY 2012-13 YTD Appropriations**

**1. Decreases for the UIA due to Reduced Federal Grants**

Executive decreases the Unemployment Insurance Agency's (UIA) spending authorization and FTE positions due to reduced federal grants. The federal government supports the administrative expenses of the UIA through formula grants based on the Insured Unemployment Rate within the state. Due to the decline in the state's Insured Unemployment Rate during 2012, the federal government reduced the amount of these grants and UIA employees were laid-off in 2012. House concurs. Senate concurs. Conference concurs.

**2. Transfer of Storage Tank Programs from DEQ**

Executive transfers spending authorization and FTE positions from the Department of Environmental Quality (DEQ) for the Aboveground and Underground Storage Tank Programs to the LARA budget. The state restricted revenues are generated by application, registration, installation, inspection, and certification fees while the federal revenues are supported by grants from the US EPA. E.O. 2012-14 transferred the Aboveground and Underground Storage Tank Programs from the DEQ to the Bureau of Fire Services (BFS). House concurs. Senate concurs. Conference concurs.
