Overview

The Department of Agriculture promotes Michigan agricultural products and protects the public from disease and unsanitary conditions in food production and handling; regulates product labeling and producer practices for dairy products, animals, and plants; and enforces consumer protection laws in food, standard weights/measures, animal health, plant pests, and diseases.

Budget Summary

The Executive budget for FY 2009-10 reflects elimination or reductions in several revenue sources, the most significant of these changes are: elimination of \$9.2 million in State Services Fee Fund revenue; elimination of Upper Peninsula State Fair revenue; recognition of reductions in Agriculture Equine Industry Development Fund (AEIDF) revenue; continuing reductions in federal support for Emerald Ash Borer program; elimination of \$8.9 million IDG from the Department of Community Health for Local Health Department food service inspection programs; and \$700,000 in proposed dairy inspection fees to offset \$700,000 GF/GP reduction in Food and Dairy programs.

The House bill is \$3.5 million Gross higher than the Executive, but is \$3.5 million less in General Fund support.

The House bill includes \$5.2 million in State Services Fee Fund revenue that had not been part of the Executive recommendation, to support county fair programs and the Office of Racing Commissioner. The House bill includes \$8.8 million in appropriations from the AEIDF. The House substitute also recognizes an additional \$1.3 million in federal USDA specialty crop grants.

New: The H-1 substitute would reduce Dairy and food safety fund revenue by \$500,000 from the amount proposed in the Executive recommendation; recognizing only \$200,000 from proposed additional dairy inspection fees. This reduction would be partially offset by an increase of \$400,000 in General Fund revenue made available from the Agriculture Development line item. The General Fund reduction in Agriculture Development in turn would be offset through IDG funding from the Michigan Department of Energy Labor and Economic Growth.
