

MISEC – Michigan Schools Energy Cooperative

Michigan Schools Energy Cooperative

1. The Michigan Schools Energy Cooperative (MISEC) was formed before 2000 by five statewide associations. It is administered by the Middle Cities Education Association. While it was originally designed to manage the natural gas and electric procurement for Michigan's K-12 districts, it now provides a number of related services and is currently offering a diesel fuel program and exploring renewables.
2. MISEC is a cooperative. In addition to providing savings to member districts, it has also returned initial investments (\$300,000), reduced deposits (\$240,000) and helped insure members pay less than market rates (\$600,000).
3. It is the largest program of its type in the United States, managing as much as \$100 million annually of energy for Michigan school districts. During its existence, it has saved Michigan school districts over \$120 million in energy costs. Last year alone, MISEC saved its electric members almost \$14.7 million which equated to approximately \$30 per pupil. MISEC provides over 600 million kilowatt hours of electricity to approximately 1,000 meters in Michigan schools.

The Michigan Schools Energy Cooperative is an outstanding example of a best practice in Michigan's schools.

MI House District 011	Cummulative Savings (thru Dec 2014)	MI House District 063	Cummulative Savings (thru Dec 2014)
