On 11/23/15 I was in David Mannings room 104 picking up his laundry as a usual task, David then asked me to go get a nurse, because he didn't feel to good and his stomach was bothering him, so i went and told the C.N.A. To check on him, i then continued doing my job, before returning to Davids room, David told me he wanted to get up but nobody would help him! So he got up by himself. I asked him if he rang his bell? He said yes, but nobody answered his call light, so i called the house supervisor and she handled it.
